

CHANNEL CABINET SPACERS

Channel Cabinet Spacers are available in two heights* to correspond with the two available heights of standard Base Cabinets. Placing the Channel Cabinet Spacers between the Base Cabinets provides a filler panel flush with the cabinet base. Each Channel Cabinet Spacer is finished in the same manner as the Base Cabinets.

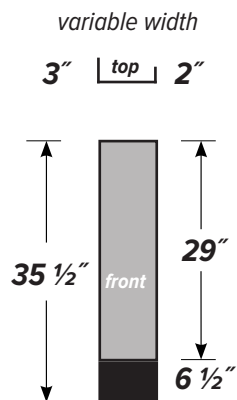

Channel Cabinet Spacers for laboratory style (wetlab) cabinets are available in two heights*:

WCCS-15 for bench-height cabinets

WCCS-10 desk-height cabinets

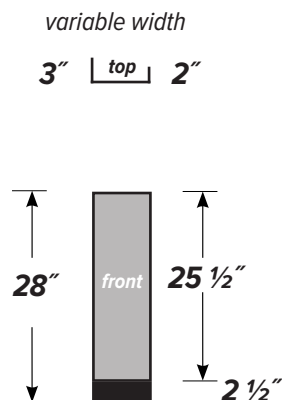

STANDARD BENCH-HIGH (WCCS-15) Dimensions

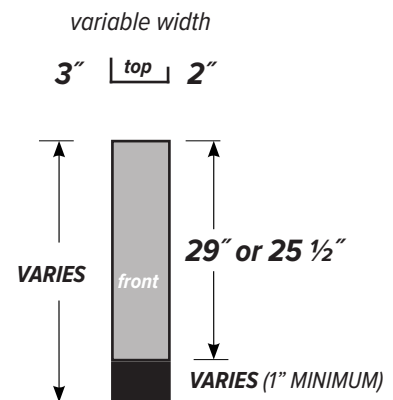

Bottom 6 1/2" painted black to match cabinet base

STANDARD DESK-HIGH (WCCS-10) Dimensions

Bottom 2 1/2" painted black to match cabinet base

*SPECIAL (WCCS-SP) Dimensions

Bottom painted black to match special cabinet base

COMMON "SPECIAL" HEIGHT PARTS ARE ADA OR STANDING HEIGHT, BUT CAN BE ANY HEIGHT.

THE BASE HEIGHT WILL BE ADJUSTED, BUT THE CABINET SHELL HEIGHT WILL REMAIN FIXED AT EITHER 29"h or 25.5"h.
